Cherry Emerson Black and White Printer Konica Minolta 652

Operating System: Mac OS X

Instructions to setup Print Code
1. Open a program to print a document
2. Press Command + P or File Print
3. Select biocehubbw as the printer
4. Select Output Method under Pages
5. Check Account Track
6. Enter your print code in the Password text box and Check Save Settings, so you will not have to repeat this step again.
7. There is a Presets drop down menu under Printer Select Save As and enter biocehubbw as the preset name, and leave Only this printer for Preset Available For
